ILY Enterprise, Inc announces the most compact dual-drive autoloader system.

Santa Fe Springs, CA – April 1, 2008 – ILY Enterprise, Inc., a leading provider of high performance duplication systems, announces the release of the new Spartan Max D2 Autoloader, the latest addition to ILY Enterprise's extensive duplicator product lines.

"The new Spartan Max D2 is definitely the most anticipated standalone autoloading disc duplicator this year," said Jeffrey Yao, Vice President of ILY Enterprise, Inc. "The innovative robotic arm design paired with the dustproof enclosure not only make the Max D2 the most compact autoloader in the market, but also protects the system during duplication. Users will enjoy the ease of use as well as the fast and reliable performance expected from the Spartan product line."

Spartan Max D2 Features:

- Patent Pending Robotic arm picks, loads & detects discs
- Self-locking disc drawer prevents damage during duplication
- MMT (MultiMaster Technology) differentiates master disc and blank discs
- Sliding track for easy maintenance or upgrade of recorders
- Duplicates 12cm, 8cm and business card discs
- All failed discs collected in an isolated bin
- Durable & dustproof case
- Compact, standalone system. No computer required

Pricing and Availability

The New Spartan Max D2 units are now available with prices starting at \$1,295 (U.S. MSRP). Please visit ILY Enterprise, Inc. at www.ily.com for more information or contact an ILY Account Manager at 1-888-PICK-ILY (742-5459).
