## **PRESS RELEASE FOR IMMEDIATE RELEASE: 01/08/2009**

### **Spartan Duplicator announces Max D3 & B3 unattended autoloading disc duplicator**

Spartan Duplicator introduces Max D3 & B3 DVD/CD and Blu-ray disc autoloading disc duplicators with 3 writers and 100-disc capacity in a fully-enclosed chassis.

**City of Industry, CA, January 8, 2009** – Spartan Duplicator ([www.Spartan-Duplicator.com](http://www.Spartan-Duplicator.com)) today launches Spartan Max D3 DVD/CD and B3 Blu-ray Disc autoloading duplicators. Autoloader has a fully-automated robotic arm to pick up discs, place them in writers, pick up and drop off completed discs virtually without operator involvement.

Media duplicators offer individual or business an easy and reliable platform to deliver time-sensitive contents to the market quickly and cost-effectively. Spartan Max D3/B3 Autoloaders operate without PC and software so there is no expensive hardware to buy or maintain.

“Spartan Max D3/B3 autoloaders have MultiMaster Technology capable of differentiating master discs from blank discs. Users can make multiple copies of different masters in one copy cycle without changing discs. Unattended operation allows users to move onto other more important tasks.” says Cedric Tan, Vice President of Sales and Marketing. “What separates Spartan Max D3/B3 from others is that all discs are stored securely *inside* the fully-enclosed metal chassis with self-locking disc drawer. Our unique design keeps out environment pollutants that may cause copy failures comparing to competing models where discs are totally exposed and subject to contamination. Spartan Max D3/B3 helps individual and business to work more efficiently, saving valuable time and resources.”

Potential markets for the Spartan Max D3/B3 autoloading disc duplicators include: entertainment, government, education, healthcare and SMB. For more information, please visit our website at [www.spartan-duplicator.com](http://www.spartan-duplicator.com).
