PRESS RELEASE FOR IMMEDIATE RELEASE: 01/08/2009

Spartan Duplicator announces Super USB duplicators with up to 118 ports

Spartan Duplicator introduces Super USB duplicators with up to 118 independent USB ports.

City of Industry, CA, January 8, 2009 – Spartan Duplicator (www.Spartan-Duplicator.com) today debuts Spartan Super USB duplicators including 20, 34, 48 and 118 targets at the CES 2009 in Las Vegas.

Media duplicators offer individual or business an easy and reliable platform to deliver time-sensitive contents to the market quickly and cost-effectively. Spartan Super USB duplicators operate without PC and software so there is no expensive hardware to buy or maintain. USB is gaining popularity every day as portable media for content distribution and storage.

“Spartan Super USB duplicators offer advanced features such as Asynchronous mode and Source Analysis. These features are designed to minimize the overall copy time and increase productivity.” says Cedric Tan, Vice President of Sales and Marketing. “At 1980MB per minute transfer rate or 33MB per second, Spartan Super USB duplicators are also the fastest USB duplicators on the market today. A 500MB file takes only 15 seconds to duplicate and a 2GB file takes a little over a minute. Spartan Super USB duplicators also offer the most flexible target configurations on the market today. Whether you are sharing your photo collections, company profile or motion videos, Spartan Super USB duplicators can help you to save valuable time and resources.”

Potential markets for the Spartan Super USB duplicators include: entertainment, government, education and SMB. Spartan Super USB duplicators are available in 20, 34, 48 and 118 configuration at launch. Special target configurations may be available upon request. For more information, please visit our website at www.spartan-duplicator.com.

About Spartan Duplicator
